Intergenerational
Our center brings together individuals of all ages for rewarding and joyful experiences that span generations.

With a unique and innovative preschool program on site, child development services offer exploration, creativity and self-expression. Through a robust curriculum, preschool staff provide nurturing care and responsive learning experiences. Guided education supports healthy social, emotional, intellectual, and physical development.

Older adults and children have the opportunity for daily interaction.

Creating community, our center benefits the whole family.

Volunteerism
Our center offers a variety of volunteer opportunities.

Through volunteerism, individuals have a positive impact on causes they care about while enriching the lives of those in need and contributing toward the betterment of their community. Through volunteerism, individuals use their talents, become exposed to new possibilities and acquire new skills.

Volunteering is an opportunity to become involved, stay active and work with others as a team. Volunteering generates personal reward and satisfaction.
